

Multi-Factor Authentication for student and parent payment portal login

We're enhancing the security of our student payment portal to better protect your personal and financial information. Beginning soon, Multi-Factor Authentication (MFA) will be required for all users to access the Georgia Tech Student Payment Portal. MFA provides an additional layer of protection by verifying your identity each time you sign in.

Please review the instructions below to create your security profile and enroll in MFA.

***** Please note that this is the same MFA that is utilized currently for enrolling in direct deposit. If you have set up an MFA for direct deposit, please use that information for the MFA when logging into the Student Payment Portal. *****

Step One: Creating a Multi-Factor Authentication profile to receive codes to login

Once username and password are entered in the Georgia Tech Single Sign On or "Pay Now" is clicked within OSCAR, the user will be directed to a page to select from the following options:

- A. Authenticator Application- This is the most secure option and the preferred method to use. Examples are Google authenticator and Microsoft authenticator. These apps can be downloaded from the Apple App Store or Google Play.
- B. Text Message - A mobile phone number will be entered to receive passcodes to login.
- C. Email address - An email address will be entered to receive passcodes to login.

Account Login

Multi-Factor Authentication Enrollment

Due to enhanced security, multi-factor authentication is required.

Primary Method

☐ **Google Authenticator (Preferred)**

New to Google Authenticator? Download from the App Store or Google Play to get Started!

☐ Text message to existing or new mobile number

☐ Email message to existing or new email address

Backup Method (optional)

Adding a backup method allows a passcode to be obtained by way of an additional method.

Setup Method
